Also,

It appears that HB 2929A is an amendment to the original HB 4205.

**Subject:** DPSST Testimony on HB 2929A

Hi Toni,

I'm submitting this for the record in response to the request from Commissioner Karia. We have confirmed that the interpretation of the current memo that was presented at yesterday's LESC was vetted through the board. This testimony may be helpful and also may muddy the waters more.

I've asked Marie Atwood (Professional Standards Director) to examine those documents to determine whether or not any information within may have been eclipsed by current rules. I'll have that information by the next meeting.

Thank you.

Phil Castle
